Many people burn the candle of life at both ends. Some men who never go into vicious dissipation use up their energies just as much by overwork or late hours, and nearly all women are compelled by circumstances to use up their powers in household or social demands, or the bearing and rearing of children. At any rate the candle of life is too rapidly consumed.

Some people need to have their natural vigor constantly reinforced in the same proportion that it is used up. They need the fortifying help of Dr. Pierce's Golden Medical Discovery. It is a powerful alterative and invigorant of the digestive functions and liver; it cleanses the blood, and makes fresh blood and healthy flesh. Nervous, debilitated women should take it in conjunction with Dr. Pierce's Favorite Prescription which is specially designed for female weakness and nervous troubles.

Mrs. Sallie Kauffman, of Virgil City, Cedar Co., Mo., writes: "I had suffered from displacement of internal organs and female weakness for one year. Had a bearing down sensation and very disagreeable feeling after my second child was born. I could be on my feet only a few minutes until he was six weeks old, then I commenced taking Dr. Pierce's Golden Medical Discovery and Favorite Prescription. I took seven bottles in all. After taking the first bottle I felt much better. I think I am entirely cured of all my troubles. I can do all my work and am on my feet all day. I am in much better health now than I have been in four years; an fleshy and gaining strength very fast."

By writing to Dr. Pierce who is chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., careful professional advice will be obtained free of cost and specially adapted to the individual case. Dr. Pierce's great 100-page Medical Adviser will be sent free for 21 cents; the cost of postage.

TOILERS OF THE AIR.

How the Work on a Suspension Bridge is Done.

The workmen on the cables follow closely after the builders of the iron roadway. These men are engaged in more perilous employment, if anything, than the former. They climb nimbly up to the very summit of the huge towers, and then without flinching proceed to descend the inclined cables. It makes the spectators below tremble for them, so dangerous is the descent, but the workmen have no fear, else they would be unfitted for the duty required of them. After sliding down the cable a dozen feet, they stop and turn around and face the towers. The men working the derrick slowly swing out to them the end of a cable about three inches in diameter. Another man carries out to them by means of a small hand pulley and rope a red-hot band of steel, which the cable workers seize with their pinches and clasp around the large cable on which they are resting. Then while the steel is still hot and malleable, the small cable, with its end secured in a thick bolt of steel, is brought into position, and the end welded into the red-hot steel band encircling the main cable. The workmen pound and forge away, hammering, twisting and bending the metal before it cools off. The welding must be done rapidly, and the workmen have no time to stop and think of the dangerous position in which they are placed. Probably the only support they have comes from their legs, which they wind tightly around the cable, as they swing their arms and upper part of the body with violent exertion.

When this cable is forged into its place, the workmen take a few moments' rest, and then slide down to the next joint, where the same operation is repeated. Cable after cable is attached in this way until there is a regular tangle of steel work and dangling cables, looking for all the world like a spider's web. But there is order in this colossal spider web, such as never existed in the home of the insect that weaves the web; in our homes and woods. Gradually one part of the bridge after another is finished, and when the "false work" of scaffolds is removed the structure stands out in all the beauty of its finished state. The bridge-builders must not only be skilled in their work, but they must have the hardihood and daring of the sailor, for most of their work is performed at an altitude higher than the topmast of any sailing vessel. They labor in all kinds of weather—when the sun is pouring down its torrid rays in midsummer or when the mercury registers zero in winter.

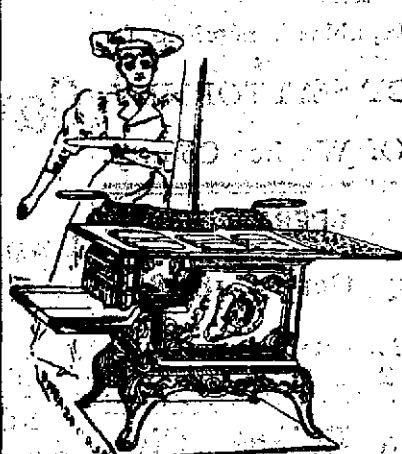

To them their dizzy height is no more than the 15 or 20 feet are to the ordinary carpenter or house painter. They seldom use ladders. They would be constantly in the way. If they want to reach a higher framework, they climb nimbly up the steel works or jump lightly across from one truss to another. A jump of three feet from girder to girder is a commonplace occurrence to them.—George E. Walsh in Godey's Magazine.

Free Shows in Paris.

The theaters of Paris have popular representations on certain days, when the seats cost only a quarter or half the usual price. There are also days like the national holiday (July 10) when most of the theaters give gratuitous spectacles. These occasions are characterized only by the best pieces, and actors dispute among themselves for the advantage of playing before this special public. No other audience is more grateful or more impressionable. They rarely have the pleasure of being present at the play. They are not biased, nor are they familiar with the wings. Having gained their places by long waiting at the door, they occupy them as conquests; they listen in silence, applaud with enthusiasm, weep all together, the prey of simple and contagious emotion.—Outlook.

A whale of 50 tons weight exerts 145 horsepower in swimming 12 miles an hour.

Free Medical Treatment for Weak Men

Who Are Willing to Pay When Convinced of Cure.

A scientific combined medical and mechanical cure has been discovered for "Weakness of Men." Its success has been so startling that the proprietors now announce that they will send it on trial—remedies and appliances—without advance payment—to any honest man. If not all that is claimed—all you wish—send it back—that ends it—pay nothing! So such offer was made in good faith before; we believe no other remedy would stand such a test. This combined treatment cures quickly, thoroughly and forever all effects of early evil habits, later excesses, overwork, worry, etc. It creates health, strength, vitality, sustaining powers and restores weak and undeveloped portions to natural dimensions and functions. Any man writing in earnest will receive description, particulars and references in a plain sealed envelope. Professional confidence. No deception, no imposition of any nature. A national reputation.

Backs this offer. (Cut out and send this notice, or mention paper.) Address

E. Kats, Agent.

THE WAR DEPARTMENT SCANDALS.

The commissioners appointed by the President to investigate the War Department scandals, have sent a list of inquiries to the Secretary of War and the heads of the various divisions of the War Department. The principal questions are:

Upon whose recommendation or judgment the various general rendezvous were selected and the reasons for such selection.

Full particulars relative to the transportation of troops by sea, giving account of the provision adopted for the care of the sick and wounded.

An account of the quantity, quality and kind of food furnished the troops, and in case that any of them failed of being plentiful and seasonably supplied state the reasons therefor.

As to the proper tentage, beds, linen, medicines, food and other necessary equipment and supplies for the use of the hospital corps of the army. If there was any lack of these things at any time, state the reasons therefor.

Whether the medical staff was efficient and sufficient at all times for the proper care of the sick and wounded, and if not, state the reasons therefor.

Secretary Alger is requested to reply to six questions, relating to the plan of campaign; when was Tampa selected as the base of operations? Why were summer camps organized at Fernandina, Jacksonville and Tampa? Was it intended to move at once on Havana, or that the campaign be postponed until autumn? Why were troops held on transports, at Tampa and not permitted to sail for several days?

The Medical Department is asked to answer seventeen questions, among which are: What steps were taken to supply 250,000 men surgeons, stewards, hospital corps, and medical supplies of all kinds? How many general and camp hospitals were established, where located, how managed, and number of patients and number of deaths in each between April 1st and August 31, 1898? How many hospital ships were obtained, how equipped, and what service did they perform? Were the armies operating in Cuba, Porto Rico and the Philippines supplied with efficient surgeons, medical supplies and proper food for the sick and wounded? Were the chief surgeons in the various corps instructed to carefully watch their sanitary condition, to demand the proper supply of water, to test the water as to its purity and to look into the cooking arrangements?

The Subsistence Department is also asked to answer seventeen questions, relating to the steps taken for fully supplying the army with suitable clothing, camp equipment, the quantity obtained and distributed, the number of vessels purchased or chartered and their capacity, if they were properly arranged for the use of troops, and carefully inspected and pronounced satisfactory, and when so-called permanent camps were located, was there a full supply of palatable water?

These questions will probably be answered, but if they are not the commissioners have no authority to compel replies. Neither have the commissioners power to compel the attendance of witnesses, or to make them answer under oath if they should attend. At Wednesday's meeting of the board only four members of the commission were present, which indicates that very little interest is taken in the investigation.

THE NEXT CONGRESS.

Mr. Hanna and his retainers cannot conceal the anxiety which they feel over the outcome of the November elections. The leaders who are in positions to know the conditions in the states where the contest promises to be closest, cannot rid themselves of the belief that there is a strong probability of the Republicans losing control of the House of Representatives. The idea of the election of a Free Silver House of Representatives is, of course, abhorrent to the gold men. It means the passage of a free coinage bill, which as a matter of course, President McKinley would promptly veto, though, he was the framer of the financial plank of the Republican National platform, some years ago, which denounced Cleveland for attempting to demonetize silver. The passage of a free coinage bill by Congress and the veto of that bill by the President, would bring the issue squarely before the people in the next Presidential election and that Mr. Hanna does not want. There could be no international subterfuges, as in 1893, as the issue would be whether the President, maintaining the single gold standard, or Congress, favoring the double standard, should be sustained.

As the question is of vital importance to Nevada, the people should make no mistake in the next election. The gold men are active and intent on defeating Senator Stewart, if money and misrepresentation can accomplish it. Though elected to the Senate by Republicans a dozen years ago, and though he has been continually in the Senate for nearly twelve years, the Republicans now raise the cry that he is a non-resident. Men whose names are not on the tax list charge that the Senator is not a taxpayer in Nevada, though his residence in Carson, which cost \$10,000, is assessed at \$7,000. The depreciation in real estate, which every candid person admits, is caused by the demonetization of silver, making the

property less valuable now than it was years ago.

The people of Nevada believe in fair play. They are intelligent, and being so, know that Senator Stewart is grossly misrepresented by the hirings of the gold syndicate. There is not an act relating to Nevada, in the statutes of the United States, except what pertains to its admission into the Union, and the Lien-lands act, that was not introduced and advocated in the Senate of the United States by William M. Stewart, and when the exceptional acts alluded to were passed, he was not in the Senate. He is recognized by the friends and enemies of bimetalism as one of the ablest and most untiring advocates in the cause. Why, then in the name of reason and in the interests of the State, should he not be returned to the Senate of the United States? Will intelligent people permit themselves to be deceived by political Hissians, some of whom worshipped the gold-god Cleveland, and others of whom now bow down before the gold-god Hanna?

A CORPORATION ORGAN ANSWERED.

The Gazette, which has been the willing tool of corporations for years, and bends the supple hinges of the knee before railroad magnates, that thrive may follow fawning, asks who nominated the Silver State ticket?

The State Silver ticket was nominated by a representative body of men elected by the people. The Silver convention was the only State convention held in Nevada in the year of Grace 1898 that was composed of delegates whom the people had a voice in choosing. In Reno, as everybody knows, thirty respectable citizens were selected at a public meeting to be voted for at a primary election in which all friends of silver were invited to participate. Thirteen of the thirty were elected, some by small and others by large majorities. It is a villainous slander upon those men, which only a political prostitute could conceive, to charge that they were under the influence of corporation or individual. The other members of the convention were elected in like manner by the people, and for the Gazette, the acknowledged corporation organ of Nevada, to charge that they were owned by its masters, is so barefaced a falsehood that no delegate to the convention feels called upon to refute it.

TO THE CITIZENS OF NEVADA.

A Challenge to Republican Leaders to Prove their Assertions.

The Republican Party of Nevada at its convention held in Reno, September 15, 1898, issued a platform or declaration of Principles, which as honorable men they are bound to defend.

Among other statements made is the charge of mismanagement of the Hospital for Mental Diseases. This I denounce as an outrageous misstatement, and hereby challenge any Republican leader to meet me in joint discussion before the people, at various points in the State, there to substantiate the above charge or enable me to prove its falsity.

And I particularly issue this challenge to A. C. Bragg, Chairman of the Committee on Platform of said Convention, and a candidate for office on the Republican ticket, arch enemy to remonetization of silver and editor of the Reno Evening Gazette, who for a number of years past has through the columns of his paper, been endeavoring to establish mismanagement at the hospital, the undoubted author of the above charge.

And to G. H. Thoma, who as chairman of the Washoe County committee on Platform, not content to endorse the above in endorsing the State Platform, reiterates the above falsehood in specific terms.

Who is G. H. Thoma? He is the physician who preceded me in charge of the Nevada Insane Asylum, whose mistreatment of the patients was of so outrageous a character that respect for the citizens of the State forbade my stating the facts in my last biennial report, Vice President of the Reno Gazette Publishing Company and standing candidate for the superintendency of the Nevada Hospital for Mental Diseases.

A political party must indeed be at a low ebb, when it finds it necessary to falsely assail the public charities of the State to bolster up its fallen fortunes and permits its party machinery to be used by disappointed office seekers to gratify personal malice.

Respectfully

H. BEAGSTERN.

Superintendent of Nevada Hospital for Mental Diseases.
Reno, Sept. 28, 1898. 6c
(Silver Party papers please copy.)

Interest Rates Reduced.

The Bullion and Exchange Bank of Carson and the two Reno banks will reduce the rate of interest on time certificates of deposit from 4 to 3 per cent per annum, commencing October 1st, 1898. The banks find this action necessary, as they report a large increase in deposits and less demand for money. s29w1

Weather Report.

Following is the University meteorological report received from the U. S. Observer, San Francisco: Friday generally fair.

E. R. DODGE,

Silver Democratic Nominee For

DISTRICT ATTORNEY.

A CARD FROM MR. LESTE.

He is a Candidate for Senator of the United States and Nothing Else.

Reno, August 22nd, 1898.

EDITOR NEVADA STATE JOURNAL:—Sir: In your issue of August 18th, 1898, you had the honor to say: "Hon. B. F. Leste of this county has been favorably mentioned as a candidate for State Senator."

Do me the kindness, please, to say that I am a candidate for a Senator of the United States from the State of Nevada, also that there is at the present time no other office in the gift of the people of the State of Nevada that I will accept, and oblige

Your Obedient Servant,
B. F. LESTE.

Ex-Governor Adams arrived on the V. & T. last evening.

Radiators and airtight heating stoves at Geney and Savage.

Crockery and glassware beat and cheapest at Lange & Schmitt's.

Congressman Newlands returned from California yesterday morning.

Most complete line of brushes in the State. Porteous Decorative Co.

Bargains in heating stoves, also exchanged. Thirty varieties. Lange & Schmitt.

Window glass—we don't have to cut it because we have the size—Porteous Decorative Co.

Hon. W. E. Sharon arrived from the west yesterday morning and remained over for the day.

W. G. Doane, the optician, will visit Carson to-day on professional business, returning to-morrow.

Bale ties, also forks and other tools for farmers and stockmen at the Reno Mercantile Company's store.

Anheuser-Busch beer on draught at the Monarch. Visitors will find this beer an invigorating and healthful beverage.

Henry Riter's Elite is a central resort and there is always a crowd there. If you are looking for anyone you may be sure of finding him there.

J. S. Shoemaker, one of Washoe county's old time citizens and for years County Clerk, is here on a visit, having arrived from his Oakland home yesterday morning.

Thyes will have special inducements for his visitors to-day at his resort. His place is always a general headquarters and his goods are the best that can be procured.

Block and Olansen of the Washoe Lunch Counter are recognized caterers. A first-class meal can be procured at a small price and their liquid refreshments are of the best stock.

Mr. and Mrs. J. A. Rogers and their son Charles of Winnemucca left for home last evening. Mrs. Rogers has been in Reno for a week visiting friends, while her husband and son were in San Francisco.

Student Stanton of the University received word yesterday that his brother, who enlisted in Troop M, Second U. S. Cavalry, of Nevada, was lying very low with typhoid fever and it was feared he could not recover.

Watch repairing and jewelry work promptly attended to by W. G. Doane. All work guaranteed. I am here to stay and intend to please all customers. A share of your patronage is respectfully solicited. Country orders will receive prompt attention.

Sheriff McInnis arrested an Italian at Wadsworth yesterday named Centanni on a charge of forgery committed in Kern county, California. Sheriff Bowhardt of Kern county was here awaiting the necessary papers from Governor Sadler permitting him to take his prisoner back to California.

H. H. Hamlin, the optician, is here with the finest line of goods ever handled. Anyone he has furnished glasses to within the past year can have them exchanged without cost if they are not properly fitted. Mr. Hamlin may be consulted at the Arcade Hotel. By patronizing him you have the advantage of being in a position to have your glasses exchanged without cost.

"Showmen Who are Courteous."
The Great Wallace Show is noted for nothing more than it is for its courteous treatment of patrons. Once they have paid their money and passed inside the mammoth stretch of canvas, they are regarded as guests, and are treated as such. All questions are politely answered, and parents can make the menagerie a good schooling for the children. Well-informed attendants are constantly present to discuss the habits and natures of the many wild creatures which have been collected from all lands and seas of the globe. Everything possible is done to make the show both instructive and entertaining. At Reno, Tuesday, October 4th.

Club Meeting
Following is the program to be given at the Twentieth Century Club this afternoon, which meets at 3:15 o'clock:
Literary Leader.....Mrs. L. C. Booth
Musical Director.....Miss Leder
Queen Isabella.....Mrs. A. H. Webster
Sports and Games.....Mrs. Doten
Spain Under Alphonso XIII.....Mrs. L. C. Booth

WHAT STEWART HAS DONE.

Some of His Public Services as Senator From Nevada.

The people of Nevada should not forget that Senator Stewart is about the only Representative in Congress who is constantly securing benefits for the State. The reason why he has accomplished so much is because he is a hard worker and always in his seat attending to duty. Examine what he has done since he has been in the Senate:

The establishment of the State University at Reno and Government endowment of \$40,000 annually, together with a military instructor from the War Department. This University is already a seat of learning for scholars from other States, besides affording exceptional opportunities for the children of our own citizens to acquire an education.

The construction of the mint at Carson and obtaining the necessary appropriations to operate, notwithstanding strenuous opposition in the House of Representatives to the regular estimates. Only once in the last ten years has this appropriation been allowed in the House, it always having been put on by an amendment in the Senate.

The public building at Carson. Although the first appropriation was obtained in the House by Mr. Cassidy, Senator Stewart procured the balance necessary to complete it.

Quite recently he had the first assistant Postmaster General increase the clerk hire of the postoffice at Carson from \$180 to \$700 a year, thus enabling the people to continue to enjoy the excellent service they now have.

One year ago an item was incorporated in the Indian Appropriation bill reimbursing the County of Ormsby in the sum of \$8,375 for money expended in establishing the Indian School. This money was gratefully received by the county because it was much needed in the county treasury. A resolution was passed by the County Commissioners thanking Senator Stewart for securing the appropriation.

The Indian School at Carson is an institution which is doing an immense amount of good to the Indians and at the same time is a source of benefit to Carson people. In order to show Senator Stewart that the people appreciate his efforts in establishing this school it was named Stewart Institute.

At the coming session of Congress the State of Nevada is practically sure of receiving \$404,000 on account of Rebellion War claims against the Government, while private citizens all over the State will receive payment for Platte Indian war claims. In the same bill are contained items beneficial to a number of other citizens of Nevada who are seeking relief. This great bill is called the Omnibus Bill. Senator Stewart has worked ten years in getting the State war claims into shape so that they could be presented for payment.

The collection of data and reports from Departments on these claims fill three large volumes. At every session favorable reports have been made in the Senate and on two occasions the claims were inserted in appropriation bills in the Senate, but each time no action was had in the House. California and Oregon have claims similar to those of Nevada, although much larger in amount, but it has been difficult to secure proper co-operation to have them paid.

On account of the great labor bestowed by Senator Stewart on these State claims and his familiarity with every detail connected with them he was appointed one of the conferees on the part of the Senate. His persistency and energy will force the payment of Nevada's claims at the next session which will put \$404,000 in the State Treasury. He has already taken steps to inform each individual member of the House of the justness of the claims of the State by sending the facts to them.

The Senate is so well informed on these claims that they can be passed through that body at any time.

The town of Wadsworth is within the borders of the Pyramid Lake Reservation, and consequently the citizens of Wadsworth have never been able to get title to their holdings. Senator Stewart had a provision put in the last Indian Appropriation bill allowing the people to get title to their lands, under the townsite law, at a nominal cost. This piece of legislation is of inestimable value to Wadsworth and the citizens heartily appreciate it.

The establishment of numerous post-offices all over the State and the changes of mail routes to correspond to the convenience of the miners, ranchers and others attest the influence Senator Stewart has at Washington.

The present mining laws of the United States are the product of the brain of Senator Stewart. It was he who, when an effort, which seemed too powerful for resistance, was made to sell the mines at auction, defeated this ill-considered and unwise method of disposing of the mines and obtaining the enactment of the mining laws which guaranteed to the miners the fruits of their discoveries.

On the subject of irrigation no public man has taken a deeper interest than our Senator. He is really the father of the agitation for the reclamation of the arid lands. His report made in 1890, comprising six large volumes, from the Senate Committee on Irrigation, of which he was chairman, and which traveled all over the arid region, forms the basis of all calculations now made to reclaim the immense area of land unutilized for lack of water. Senator Stewart's efforts are now being directed toward diverting

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

appropriations which are yearly being made for rivers and harbors in the east to the reclamation of the arid lands of the west which would provide homes for countless families.

On the money question, who has contributed more toward creating the tremendous sentiment which pervades this country in favor of the restoration of silver than Senator Stewart? Day and night our Senator has worked to bring to the attention of the American people the importance of remonetizing silver and enlarging the volume of money in circulation. His speeches, his letters and his editorials in the Silver Knight-Watchman, which paper he founded at great expense for the great cause so near and dear to his heart and from which 2,500 newspapers copy, have been effectual in forcing the Democratic party to throw off the gold-bug element in that party and declare for the restoration of silver at the ratio of 16 to 1. The political revolution of 1896, when 6,000,000 American citizens voted for financial independence, was caused by the steadfast devotion to principle of the Silver party of Nevada and Colorado and the labors of Senators Stewart, Teller, Jones, and others in demanding justice for the oppressed laborer, miner and farmer of this country.

In the multiplicity of his duties at Washington Senator Stewart found time to write a book on the Silver question which all intelligent and impartial critics have pronounced to be one of the best productions on political economy ever published. Our former Congressman, Mr. Bartine, who was a candidate against Senator Stewart for the Senate in 1892, has the following to say of this book:

"Its chief merits are four, namely; compactness, clearness, strength and comprehensiveness. It is a book of about ninety pages and the Senator has succeeded in compressing a vast amount of sound economics into that comparatively small space. If a man never knew anything about the money question before, he certainly will know something of it when he has read this admirable book, that is, if he is capable of learning anything at all. But, gold men and bimetalists should read this book—the former for the purpose of obtaining a rudimentary knowledge of monetary principles; the latter for the attainment of greater precision and compactness of thought."

The re-establishment of free coinage by the United States would at once make Nevada a growing and prosperous State. Prospectors would travel all over the mountains searching for new mines, while every known mine would be operated and developed to its maximum extent. The reopening of the mines would immediately put from 10,000 to 20,000 men at work and every mining camp would be vitalized by activity and prosperity. The production of mining camps would be carried over the railroads, thus making it necessary to have more facilities for transportation. The home markets created by the camps would make prosperity for the merchant and the professional man. There would be no difficulty in obtaining foreign capital to irrigate the arid lands and develop the resources of Nevada when mining is booming, money plentiful, people prosperous and a permanent home market assured.

A President and Congress will be elected by the people who will bring to Nevada the cherished boon so long sought and so desperately needed to her welfare—the equal mintage of gold and silver at the ratio of 16 to 1; and when that day of triumph comes let the Grand Old Stewart who has given his best days to the procurement of this result be in the front rank in the Nation's council, there representing the great people for whose welfare and happiness he is ever solicitous.

For District Attorney.

E. R. Dodge, regular Silver-Democratic nominee for District Attorney, publishes his card in another column. Mr. Dodge has been a resident of Reno for a number of years and is consequently well known to the people of Washoe county. In asking for the office of District Attorney he does so with a thorough knowledge of the responsibilities of the office and the duties required, having served in that capacity. He is an experienced attorney and fully capable of looking after the county's interests in all suits that may be brought, the prosecution of criminals and giving advice to the Commissioners or other county officers when occasion demands. Mr. Dodge is a deserving citizen and should receive the loyal support of the Silver and Democratic parties. By receiving such support he will be elected and the taxpayers of Washoe county will have no occasion to regret their choice.

Dr. P. Manson arrived from Virginia City last evening on his way to Fresno.

REGARDING TROOP M

Congressman Newlands Sends a Second Telegram.

Adjutant General Corbin of the War Department replied yesterday to Congressman Newlands' telegram of last Saturday asking for the discharge of the Nevada boys composing Troop M, Torrey's regiment. General Corbin wired the commanding General at Jacksonville for full particulars concerning troops at Jacksonville and he replied: "I have to state Newlands' telegram is based upon sensational reports constantly put forth in and around the homes of men for the purpose of getting them mustered out as well as political and other reasons. The only Nevada troops in Torrey's Cavalry by the morning report of September 26th shows thirty-four men now present for duty. Of the remainder there are thirteen absent on sick furlough, eleven slightly sick, five sick in hospital and seven getting well at recuperative hospital at Pablo, one in arrest, seven discharged for disability, one transferred to another organization and one discharged to take Lieutenantcy in the regular army. There has not been a single death in the troop since it was organized and the general condition is good. The sick of the troop not only receive supplies for sick soldiers from the Government, but are supplied in addition with many other articles furnished by the Red Cross Societies of Nevada."

Mr. Newlands immediately wired the following:

Adjutant-General H. C. Corbin, Washington, D. C.:—Disability of about fifty per cent of troop does not indicate favorable condition, and I am at a loss to understand why the considerations which induced removal of troops from Santiago to Montauk should not also, after suspension of hostilities, lead to removal of troops in Florida to some healthful place in mountains or at seashore. Kindly show this to the President.

FRANCIS G. NEWLANDS.

A MUSICAL CONSTELLATION.

The Great Musical Event in Store for Monday.

The anticipated visit of Beatrice Priest Fine and her assisting artists Herr Arthur Weiss and Arthur Fickenscher, is looked forward to with pleasure by the musically inclined people of Reno. Such a galaxy of musical stars as are billed to appear here on next Monday night, it is seldom Reno's opportunity to hear. Mrs. Fine is accorded the first among California singers and at the recital on Monday evening, her selections will be from the best of her repertoire. She has been favorably mentioned with the best singers of the age. Herr Weiss is a master of the cello and his playing never fails to elicit the most enthusiastic recognition from musical critics. Mr. Fickenscher also is a wonderful pianist and accompanist and has no equal on the coast. Altogether a rare treat is in store for the people of Reno and they should show their appreciation of these artists by a jammed house on Monday evening. Seats are now on sale at Miss Claire Dickinson's store.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours M. A. Hogarty, Lexington Ky.

Sold by S. J. Hodgkinson, Druggist.

John Sunderland.

John Sunderland is painting and beautifying the front of his big stores. Mr. Sunderland always keeps his stores in up-to-date style so that they look like those in a large city. His stock is also always kept up, the very latest in men's and boys' wear being obtainable at lowest prices and the superior quality of his goods is evidenced by the fact that the commercial men, who travel this circuit, will frequently wait until they reach Reno to purchase their hats, shoes and clothing, knowing they can get a superior article at Sunderland's.

Discovered by Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and two bottles, has absolutely cured. Her name is Mrs. Luther Lutz." Thus writes H. C. Hamrick & Co. of Shelby N. C. Trial bottles free S. J. Hodgkinson's Drug Store Regular size 50c and \$1.00 Every bottle guaranteed.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by, S. J. HODGKINSON.

Len Allen left for his Charohill county home yesterday morning.

PLATFORM.

The Silver Party of Nevada pledges its unwavering devotion to the principles of government laid down by Jefferson and Lincoln. That the highest duty of government is to regulate its laws that the spirit of equality shall follow men through life, giving each man the opportunity to work out to the fullest measure his possibilities unobstructed by law, and unaffected by the conquest of his dominion by other men. We endorse, as expressing the demands of the American people in consonance with the foregoing, the platform of the National Silver party formulated at St. Louis, July 23, 1896, and the financial plank of the National Democratic party adopted at Chicago, July 7, 1896.

The history of the movement for the restoration of bimetalism is the glorious story of Nevada's leadership. The educational work so patriotically undertaken six years ago has spread throughout the entire country. On the issue that the value of money is quantitative and not qualitative, the intellectual and political forces of nations are now battling. Mindful of her glorious record Nevada will take her place again in the conflict not as the ally of gold but on the side of those who struggle in the fields of adversity.

We reaffirm our devotion to the free and unlimited coinage of silver at the ratio of 16 to 1 by the independent action of the United States, and we emphatically oppose to the Republican policy of increasing the bonded debt, of transferring the sovereign power of the government to issue money to banking institutions of contacting the circulating medium to the single gold standard, and of increasing taxation while contraction is diminishing the means of payment.

Our faith in the loyalty ability, and wise leadership of William J. Bryan is undiminished, and we pledge for the silver forces of the United States with 16 to 1 as their motto, and William J. Bryan as their standard bearer, an overwhelming victory in 1900.

We invite the co-operation of the Republican party of Nevada who declared in their platform of May 29, 1896, as follows:

"Resolved: That the Republican party of this state is in favor of free and unlimited coin-

age of both gold and silver; that it holds to this principle of pure faith and a test of party allegiance, that it will permit of no abandonment or modification of this doctrine; that let whoever prove recreant to the principle of bimetalism it will remain steadfast thereafter."

And who on May 9, 1896, at Virginia City, declared as follows:

"We again reiterate our steadfast devotion to the cause of the free and unlimited coinage of silver, and declare that in carrying out the restoration of the true bimetallic standard of value as it existed previous to 1876, namely, at the ratio of 16 to 1, is an absolute and indispensable requirement before the financial system of our government will afford the people a value of stable circulating money sufficient to place the business of the country on a permanently prosperous basis."

We endorse the action of Nevada's representatives with respect to the financial legislation, commending their patriotic support of the administration in time of war, whilst using all efforts to prevent the issuance of bonds.

We say to the Republican party of Nevada: Do not the beneficent results of the tariff schedules of the Dingley bill which affect Nevada, and which Nevada's Silver representatives secured, namely: wool, cattle, hides, cyanide, and bonax, fall upon us as the rain falls upon the just and the unjust? And if so, in what manner could Republican Representatives have done more?

We say to the Democratic party of Nevada: Has not the action of Nevada's Representatives on financial legislation been in keeping with the Democratic platform of 1896, and, in this respect, could Democratic Representatives have done more?

We express our profound appreciation of the tireless efforts of Nevada's grand old man, Wm. M. Stewart, not only as the leader of the silver cause in America, but for his great devotion to the local interests of the State, as exemplified by the fact that he has been the author of many of the important measures affecting Nevada's interests which have been enacted by Congress, namely, the mining laws of the United States, the Carson Mint, the Stewart Institution, the establishment of the Agricultural Experiment Station, which enables the State University to receive \$40,000 a year Government aid, and the securing of a military instructor at the State University.

We further commend his efforts, now likely soon to be crowned with success, to secure the payment to the State and citizens of Nevada of nearly half a million dollars for moneys expended in the suppression of the war of the rebellion, and Indian outbreaks. We endorse his proposal to secure legislation making the Tahoe and vicinity a national park, the Government purchasing on an equitable basis the rights of parties whose interests are affected, as not only preserving from destruction one of Nature's greatest wonders, but also securing national Government control for irrigation purposes of a great lake reservoir, which will guarantee the farmers along the Truckee river more water for irrigation, and enable a vast additional area of land to be brought under cultivation.

We earnestly recommend the re-election of Wm. M. Stewart to the Senate of the United States, and pledge the Silver party of Nevada and the non-partisan Silver convention to his support for that office.

To our other Senator, John P. Jones, we extend the greeting of a people who rejoice that they have such a great public servant who has honored this country by his long and distinguished career. His pre-eminent knowledge of all financial questions has been used by him for the benefit of the whole world, and his speeches in the United States Senate upon the silver question have become text books for those statesmen who are devoted to the interests of the whole people.

We take pride in the career of Francis G. Newlands in Congress, notably in the fact that he has risen in six years to a place among the leaders of the House, and that his influence in public affairs is becoming more and more manifest, as is shown by his great part in the annexation of the Hawaiian Islands, a consummation anticipated and desired by the American people for many years past. We are proud to say that Nevada cannot afford to lose him as her Representative in the halls of Congress.

Recognizing the importance of State development upon agricultural lines, we commend the efforts of our Representatives in Congress to secure for the State of Nevada legislation looking to the reclamation of arid lands, and the storage of water in reservoirs and upon our Senators and Representatives in Congress to secure the passage of irrigation bills now before Congress, introduced by our Representative Francis G. Newlands.

The United States is now in the rightful control of Cuba, Porto Rico, and the Philippine Islands, and we are in favor of holding the same until the American people shall have time to consider and make such disposition of the new acquisitions as sound policy and the interests of the whole country may require.

We favor the construction of the Nicaraguan canal by the Government of the United States of America as a political and commercial necessity.

At the last session of Congress a law having been passed providing for the settlement of the indebtedness of the Central Pacific railroad to the Government of the United States, the terms of which require the payment of the entire debt, principal and interest, within ten years with interest at the rate of 3 per cent per annum, and on failure to make such settlement within one year, the mortgage lien of the United States to be at once foreclosed, and the property sold to the highest bidder, we favor foreclosure according to the terms of said Act, in case the conditions regarding settlement are not complied with.

Certain decisions of the United States courts having shorn the Inter State Commerce Commission of the authority and powers originally intended to be conferred upon it when originally enacted, we favor such amendments to the Act as will make it an effective protection to the people against discriminating tariffs.

The heroism and valor of the American soldier and sailor have won additional laurels during the war with Spain. The story of the brave deeds of our naval and military heroes will forever form a glorious page in our history. On land as well as sea America's defenders have proved their unsurpassed courage. Praising those who fought our battles, we condemn the traitorous conduct of those officials, wherever responsible, who test to whose culpability the death by starvation and disease of over a thousand of our men. We denounce the awful scandals involved in the conduct of the war by unprincipally and completely disgraced and that adequate punishment is meted out to the traitors.

The people of Nevada are justly proud of their University. We commend the efficient management which has made it an institution of unimpaired usefulness and widening possibilities. Its influence is already felt as a potent factor for the intellectual and economic development of the State. We pledge to it generous support and hearty co-operation along every line that will tend to its present high standard, or conduce to its improvement.

This convention pledges its nominees for Governor that if he will approve of such legislation as will carry into effect the sixth section of Article 16 of the Nevada Constitution, which provides that the Legislature shall provide a special tax which shall not exceed two mills on the dollar of all taxable property in the State in addition to the taxes now provided for the support and maintenance of the State University and common schools. This convention recommends all county conventions of the Silver party to pledge their nominees for the State Legislature to carry into effect the State Constitution by passing a bill levying a tax of one mill on the dollar of all taxable property in this State in addition to the other taxes now provided by law for the support and maintenance of the State University and common schools of this State.

We invite comparison of the four years during which the Silver Party has been in control of the State Government with the last four years of the Republican administration. The expenses of the last Republican Legislature amounted to \$51,000, that of the last Silver Party Legislature, \$23,500. The expenses of the Executive Department for the last year immediately preceding Silver Party control amounted to \$23,500, while for the last year of the Silver Party control they were \$23,500. The expenses of the Executive Department for 1897. For the last four years of Republican management \$28,000 were expended in public buildings as against \$37,000 by the Silver Party. And during the last four years of the Silver Party control the State has been able to pay off its debt of \$100,000, while during the last four years of the Republican administration it has increased its debt to \$1,000,000. The Silver Party has fulfilled its promise of retrenchment with reference to salaries of State officials and the curtailment of unnecessary expenses, while on the other hand it has generously fostered the educational and charitable institutions of the State and wisely contributed to its public improvement.

BIDS OR PROPOSALS WANTED.

NOTICE IS HEREBY GIVEN THAT BIDS or proposals will be received by the City Council of the City of Reno, Nevada, until 7:30 o'clock P. M. of Saturday, November 13, 1898, at the office of the City Clerk, Reno, for the purchase of "Reno Water Works bonds" in the sum of \$100,000 or any portion thereof not less than the sum of \$500. Said bonds to bear interest at the rate of six percent per annum, payable annually at their maturity at the office of the City Treasurer of Reno. Said bonds shall not be liable to taxation by said city, and bids or proposals will be received by said Council as provided for the construction of a water system in a water system for said City of Reno, in accordance with the plans and specifications adopted by said City Council, on Monday, September 28th, 1898, which said plans and specifications are now on file with the Clerk of said Council, at his office in the City of Reno, Nevada, and are hereby referred to and made a part thereof, and will be subject to public inspection at any time between the hours of 9 o'clock A. M. and 4 P. M. legal holidays excepted. Payments for the construction and putting in of said system will be made by bonds of said City of Reno, bearing interest at the rate and payable at the times and at the place and be unobtainable by said city of Reno, at not less than their face value, in the manner provided in said specifications. All bids or proposals shall be forwarded and sent upon the same to the City of Reno, Nevada, and shall be opened to indicate the character of the contents, and addressed to F. B. Porter, City Clerk, Reno, Nevada.

The person or corporation offering to provide the best permanent system of water supply, and the least number or amount of said bonds, shall be deemed the lowest bidder; provided the Council reserves the right to reject any and all bids.

F. B. PORTER, Clerk.
Reno, Nevada, September 28, 1898.

TO WHOM IT MAY CONCERN.

STATE LAND OFFICE,
CARSON CITY, NEVADA, September 2, 1897.

NOTICE IS HEREBY GIVEN THAT THE State of Nevada, under the Act of Congress approved June 16, 1880 (21 Stats. 297), has been placed in the United States Land Office at Carson City, Nevada, List No. 210 of lands selected under said Act, and has applied for a patent for said lands; that a part of said land is open to the public for inspection, and a copy thereof, by descriptive subdivisions, has been posted in a convenient place in said United States Land Office for the inspection of all persons interested and the public generally.

Within the next sixty days following the date of this notice protests or contests against the claim of said State of Nevada, to any tract or sub-division described in the list, on the ground that the same is more valuable for mineral than agricultural purposes, will be received and noted by the Register and Receiver of the United States Land Office at Carson City, Nevada, for report to the General Land Office at Washington, D. C.

The following are the sub-divisions described to wit: NW 1/4 of SE 1/4 of Sec 18, T. 24 N., R. 18 E., M. D. B. & M. - 30 acres.

State Land Register of the State of Nevada.
Date of first insertion, September 2, 1898.
